PROFESSIONAL SUMMARY

Full Stack Developer with over 6 years of professional experience in the PHP/Laravel ecosystem. Experienced in building scalable web applications, RESTful API development, payment gateway integrations, real-time applications, and database optimization. Adopts SOLID principles and clean code approaches to design sustainable software architectures, contributing to business goals by delivering performance-oriented solutions.

TECHNICAL SKILLS

Backend & Arch:	PHP, Laravel, Node.js, RESTful API, Microservices
Frontend:	Next.js, Tailwind CSS, JavaScript (ES6+), React, TypeScript, jQuery, HTML5 & CSS3, Bootstrap
Database & Cache:	MySQL, PostgreSQL, MongoDB, Redis (Cache & Session Management)
Mobile & Infra:	Flutter, Docker, Ubuntu Server, Nginx, Git
Integrations:	Artificial Intelligence (AI) APIs, Payment Gateways (iyzico, PayTR, Param), Paraşüt API, SocketIO, Google Maps & Calendar

WORK EXPERIENCE

Senior Laravel Developer — Webudi

October 2023 – September 2024

- Designed and developed the backend architecture of corporate personnel support and training platforms from scratch using Laravel.
- Managed the end-to-end integration processes of payment gateway systems including iyzico, PayTR, and Param.
- Identified and resolved performance bottlenecks in legacy codebases, achieving a 30% overall system performance optimization.

Full Stack Developer — Hane Software

July 2020 – July 2022

- Conducted database optimization and performance enhancements for health tourism and medical appointment platforms, architecting a scalable infrastructure capable of handling high visitor traffic with zero downtime (one project achieved 1.3M+ clicks).
- Integrated WebSockets into the Togahh project to facilitate real-time data streaming and dynamic appointment management.
- Dockerized production environments and managed server administration and deployment operations on Ubuntu Server.

Full Stack Developer — Avaken (Freelance)

January 2020 – April 2026

- Developed and maintained modern, scalable, and high-performance web applications leveraging Laravel, Next.js, and Tailwind CSS.
- Architected the API workflows for the LangWord application and spearheaded the full-lifecycle development of QRKEN dynamic QR menu and inventory/stock tracking systems.

EDUCATION

Ondokuz Mayıs University — Associate Degree in Computer Programming

2015 – 2017

CERTIFICATIONS

Advanced Laravel: Applied Laravel Training from Scratch to Advanced 2020

Software Architecture: PHP OOP and Object-Oriented Project Development 2019

Full Stack Web Development: Comprehensive Web Development with PHP from Scratch to Advanced 2019
